# The Broncobots Bulletin.

## We <3 Our Mentors

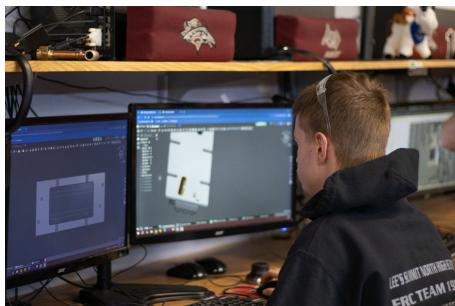

2/15/25 - This week, The Broncobots would like to thank all our mentors for volunteering their time during the FIRST season and beyond. 33% of our current mentors are Broncobots alumni, a testament to the incredible team environment we build year after year.

Their consistent effort week after week keeps our team running all year round.

## This Week @ The Shop

This week Broncobots continued iteration progress on key subsystems as the robot comes to life. Programmers got to work on automation and making each piece of the robot work together. Stay tuned as more details of The Broncobots 2025 robot are revealed!

# Broncobots Spotlight

## Student - Weston R.

**Years on the team:** 1

**Role on the team:** Manufacturing

**Favorite Part of Broncobots:**

Seeing parts he made on robot

**Fun Fact:** Been to 28 Natl. Parks

## Mentor & Alumni - Levi M.

**Years on the team:** 10

**Subteam Focus:** CAD + Mechanical

**1st Experience w/ Robotics:**

Attended Broncobots Robotics Camps

**Fun Fact:** 3 Year Human Player

## Sponsor Shout-Out

This week we'd like to again shout out Venture Industrial Parts! Building robots is hard. Their assistance in special part machining is vital to us throughout our season.
